At Kuma® Outdoor Gear, we've always believed that we could do more in our sustainability journey by finding innovative ways to reduce waste. Through our **"Fix It Don't Replace It" program**, we had taken a step in the right direction, but now we are excited to take that next step to reduce our waste impact. That's why we're proud to present our latest initiative: **The Re-Discover Project**.

RE-DISCOVER PROJECT

KUMA™ Outdoor Gear

First, it's important to understand the **circularity of our product** and how it exists during it's lifetime. Here is our product's journey...

Rediscover your gear.

kumaoutdoorgear.com

In collaboration with **Earth Warrior**, we've embarked on an exciting journey of repurposing and rediscovering the potential in items considered warrantied, broken, and returned. With Katrina's help, we've created sewing patterns that allow us to efficiently and effectively repurpose returned goods, such as chairs, tents and pet products. We're giving them a new life and "Re-Discovering" how we can continue the circulation of these would-be discarded materials.

Our goal is "nothing goes to waste!" Every component of the original item has to have a purpose and a plan. From the straps and buckles to the fabric and stuffing, we utilize every piece recreating "new" items that our Kuma Kommunity can enjoy and use again.

Repurposed, with our **bear** hands.

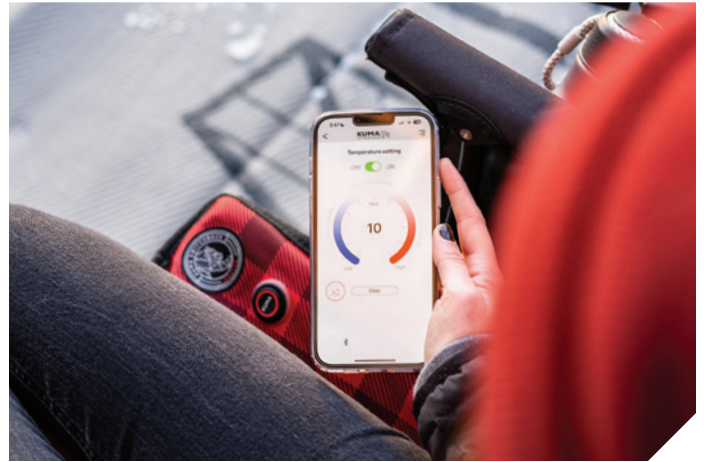

Items we'll be re-producing:

- Log Carrier
- Large Tote
- Small Tent Tote
- Dog Mannequin
- Apron
